February News from the U-M Injury Prevention Center!
It's been an active time around the Center. Our faculty have published 37 new articles, and we're working with our partners with the goal of reducing the burden of injuries across the Great Lakes and the U.S.

To achieve these goals, we continue to sustain our core activities of research, training, and outreach across our focus areas of prevention: Opioid & Overdose, Youth Violence, Suicide, Concussion, Motor Vehicle Crash, and Older Adult Falls.

Thank you to our large group of academic, community, and public health partners for contributing to the Center's success.
February HIGHLIGHTS

- Register now for the March 25th U-M IPC 2020 Annual Research Symposium
- Dr. Bonar and team share a scoping review on prescription opioid misuse, an effort made possible through our partnership with the National Safety Council.
- Register for ASIST, an intensive 2-day suicide prevention workshop
- New CDC K award available on preventing interpersonal violence impacting children and youth
- Congratulations to Dr. Marc Zimmerman receiving the President's Award for Public Impact
- Register for exciting upcoming spring events and webinars
- Our researchers have published 37 new articles
- New funding and job opportunities

Register Now for 2020 Annual Research Symposium

Keynote Speaker Dr. Amy Bohnert

We invite researchers, post-doctoral fellows, and students to disseminate research, pursue new collaborations, and explore ideas in injury prevention
REGISTER NOW

Date: March 25, 2020
Time: 8:00 am - 1:30 pm EST
Location: North Campus Research Complex, Ann Arbor, MI

Prescription Opioid Misuse among Adolescents and Emerging Adults in the U.S.: A Scoping Review

Current state of research shows that few studies explore prescription opioid misuse (POM) trajectories or the efficacy of prevention programs. 76 studies focusing on POM met inclusion criteria. The majority of studies focused on epidemiology, and lacking are studies focusing on POM trajectory & evidence-based prevention interventions. 8,312 Articles, 76 literature published 2013-2018. 1 in 20 adolescents report POM.

Scoping Review by Dr. Bonar and Team on Current State of Research on Adolescent Prescription Opioid Misuse - an Urgent Need for Evidence-based Interventions

Core Faculty Dr. Erin Bonar, Dr. Lara Coughlin, Managing Director Jessica Roche, Director Dr. Rebecca Cunningham, and Co-Associate Director Dr. Maureen Walton and team have published a comprehensive scoping review on prescription opioid misuse (POM). This critical effort was made possible through our partnership with the National Safety Council. Published this month in Preventive Medicine, the authors found that 1 in 20 adolescents report POM and highlighted significant gaps in research.

Registration is open for this interactive, two-day suicide prevention workshop on March 17-17, 2020, to train university suicide prevention champions. Ideal participants are university faculty or staff with an interest in mental health/student well-being who might either interact with vulnerable students themselves or who could serve in a supportive role in their respective departments with this higher level of training. The workshop is co-sponsored by the University of Michigan Campus Suicide Prevention Grant team and the university’s Out of the Darkness Student Group.

**DATE:** March 16-17, 2019  
**TIME:** 8-4:30  
**LOCATION:** Michigan Union

---

The CDC National Center for Injury Prevention and Control (NCIPC) announces a call for applications for a Mentored Research Scientist Development Award (K01). The NCIPC intends to fund from two to five awards and to accommodate funding of research that examines firearm-related behavior, crime, injuries, and deaths among children and youth or includes firearm-related behavior, crime, injuries and deaths among children and youth.
Dr. Marc Zimmerman, PhD

Congratulations to Dr. Marc Zimmerman on Receiving the President’s Award for Public Impact

Dr. Marc Zimmerman, Co-Director, Outreach & Translation, and Director of the Prevention Research Center and the Michigan Youth Violence Prevention Center in the School of Public Health, will receive President Schlissel’s Award for Public Impact. The award honors individuals whose research and expertise tangibly addresses a major public-sector challenge.

System for Opioid Overdose Surveillance (SOS)
Web-based Dashboard
SOS is an opioid overdose surveillance system
and Michigan High-Intensity Drug Tracking Areas (HIDTA). The system provides near real-time mapping of suspected non-fatal and fatal overdose cases, as well as demographic briefs to authorized public health and public safety stakeholders across the state of Michigan. Click to learn more or request access.

MORE

Comprehensive Opioid Prescribing Toolkit
The Michigan Safer Opioid Prescribing Toolkit is a free, publicly available, web-based toolkit on the safe prescribing of Opiates created for practicing clinical providers. The content is organized in broad categories with “provider-facing” and “patients and family facing” web pages that link the viewer to a variety of topics related to the opiate crisis.

Access the Toolkit

Checkpoints Helps Parents of Newly Independent Teen Drivers
The Checkpoints website is a powerful, free resource that teaches parents how to address specific risks of teen driving, learn about teen driving laws in their state, understand strategies they can use as a parent of a teen driver. It also provides an interactive, personalizable tool for creating and maintaining a parent-teen driving agreement, tracking their teen’s driving progress over time.
