Summer 2024 Injury Prevention Center Internships

The University of Michigan Injury Prevention Center is pleased to announce 5 paid internship positions for graduate and upper-level undergraduate students for the summer of 2024.

The internships are designed for students interested in injury and violence prevention. They offer important opportunities to gain mentored research and practice-based experience in a CDC-funded multidisciplinary injury prevention center. Interns could work with a mentor from the University of Michigan, the Michigan Department of Health & Human Services, or other organizations on ongoing research or practice projects. This opportunity can fulfill the U-M MPH practicum internship requirements. Each selected applicant will be provided a stipend totaling $5,700 (dispersed as 3 monthly payments). Depending on preceptor needs, internships may be in-person or hybrid.

**Potential CDC placement:** The University of Michigan Injury Prevention Center also sponsors one competitive paid internship position for *U-M public health graduate students* at the National Center for Injury Prevention and Control at the Centers for Disease Control and Prevention in Atlanta. It is unknown whether or not this program will be in person or virtual this year. However, if travel is required, the selected applicant will be provided $500 to help with travel to/from Atlanta, GA. Applicants should indicate in their application whether or not they would like to be considered for this placement.

**Responsibilities may include:**

- Assisting in planning, developing, implementing, and evaluating injury prevention projects
- Assisting in implementing research methodologies appropriate to the study of injury prevention
- Conducting literature searches and synthesizing findings in written summaries as required
- Attending injury prevention-related workshops, seminars, and meetings
- Assisting in researching legislative policies and initiatives related to injury prevention
- Developing educational materials and tool kits based on identified needs
- Assisting in developing educational material for websites
- Assisting in communicating and presenting research or policy findings
- Assisting with grant preparation

**Qualifications**

- Graduate-level applicants must be enrolled in a graduate program or medical school at least through December 2024
- Undergraduate level applicants must be a rising junior or senior at the time of the internship
- Interest in and commitment to injury prevention practice, policy, or research
- Ability to work independently in a collegial environment
- Ability to maintain confidentiality of sensitive information
- Excellent written and verbal communication skills
Application Process and Contact Information
Applicants must apply by December 18th, 2023. Decisions will be made and communicated to all applicants by early February. Interested candidates are asked to complete and submit the following items via the Qualtrics application link:

- Full name
- Home address
- Email address
- Phone number(s)
- Citizenship status: indicate 1) U.S. citizen, 2) permanent resident, 3) student visa, or 4) other status
- Program(s) of study that you are currently enrolled in, and date/semester of anticipated graduation
- Indicate if you are applying to:
  - U-M IPC placements (undergraduate applicants are only eligible to apply for local placements)
  - CDC National Center for Injury Prevention and Control Center placement
  - Both placement opportunities
- Resume or CV
- Two letters of recommendation. These letters of recommendation may be from your academic advisor, current or former employer or supervisor, or a current or former professor or research supervisor. One letter must be from a faculty member.
- A personal statement describing all of the following (in 500 words or less):
  - Your interest in injury prevention
  - Your career goals
  - Skills that you bring to the internship
  - A summary of your previous research or practice experience (esp. related to injury prevention)
- A signed statement: “I hereby certify that there are no willful misrepresentations, omissions, or falsification in the statement and other information contained in this application.”

Please be certain that your application contains all required elements prior to submitting.

Submit your full application using the link below by 11:59 PM, ET, on Monday, December 18th, 2023.
