

# M | INJURY PREVENTION CENTER

## HOW A CERTIFICATE IN INJURY SCIENCE CAN Jumpstart Your Career

### Declare Your Certificate

Declaring your certificate in injury science will allow us to better monitor your progress, stay in touch, and keep you on track to finish your certificate.

### Take Injury Coursework

By completing the required CORE and ELECTIVE coursework and a practicum, you will gain valuable injury-specific knowledge and experience to prepare you for a career in injury prevention.

### Meet People Currently Working in Injury Prevention

Make connections with staff and faculty at the Injury Prevention Center, MDHHS, and other community organizations.

### Let Our Network of Injury Professionals Help You in Your Job Search

Your affiliation with the IPC connects you to a network of the top injury prevention researchers and practitioners in the country.

### Graduate With Your Certificate!

### Start Your Career with a Job in Injury Prevention!
